DAVEY
microlene®
purified water

Great Taste. Great Value.

Acquasafe® Water Treatment

Acquasafe® gives you a fast, easy, safe and cost effective way to protect your family from over 170 bacteria and viruses commonly found in rainwater. All you do is tip it into your tank. As it does its job Acquasafe® breaks down into oxygen and water, has no odour and protects your tank for up to 2 months.

Torrium®2 Pressure Pumps

For use on households not connected to town water, Davey Torrium®2 is an Australian made, intelligent water pressure system controller that delivers exceptionally steady water pressure. Davey uses class leading technology and design, offers superb pump protection and leading class energy savings.

WATER PRODUCTS

Microlene®

Thousands of people all over Australia and New Zealand are already enjoying the great taste and value of Davey Microlene® purified water.

Mains Water

Some tap water supplies contain chlorine and aluminium used to treat the water that can leave a residual smell and taste in the water.

Tank Water

From your roof is exposed to animals, dust and a variety of micro organisms that can effect the taste and safety of your water.

Microlene® Purifiers remove or reduce:

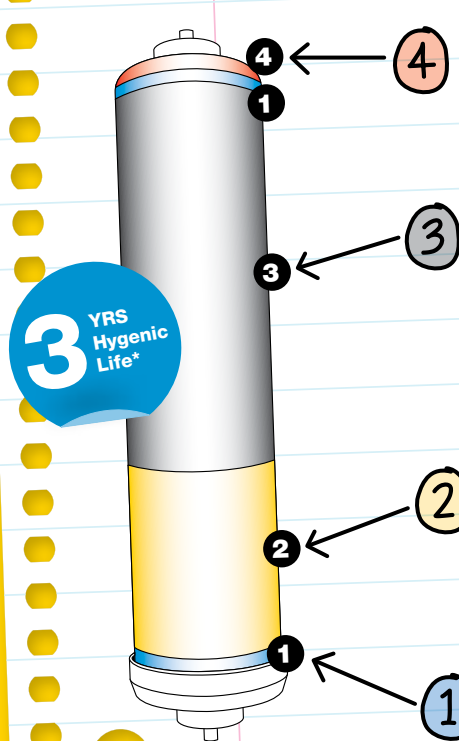

- | | |
|---|--------------|
| • Chlorine | • Pesticides |
| • Aluminium | • Sulphur |
| • Lead | • Sediment |
| • Asbestos | • Odours |
| • Cysts such as <i>Giardia</i> and <i>Cryptosporidium</i> | • Algae |
| | • Rust |

NOTE:

It is advised that Davey Microlene® is used on biologically safe water sources. Rainwater/surface water sources should be treated with Davey UV or Aquasafe® for bacteria disinfection.

Microlene® for Mains Water

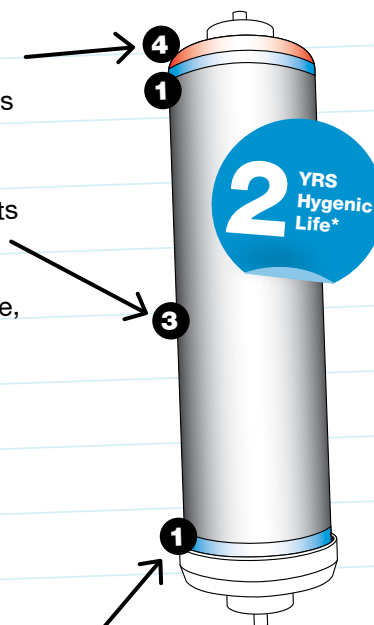

4 Medical grade polypropylene filter disc offers barrier protection by blocking particles 1 micron and larger, reducing asbestos fibres, and parasitic cysts such as *Giardia* and *Cryptosporidium*.

3 Granular Activated Carbon (GAC) traps contaminants on it's very large surface area in a process called adsorption. GAC is particularly effective in reducing volatile chemicals including: pesticides, free chlorine, VOC's and THM's. All Microlene® GAC is silver ion impregnated to limit biological growth within the purifier. EPA Reg No. 37589

2 KDF purification media reduces chlorine, iron, hydrogen sulphide, heavy metals, and bacteria from your water. KDF also reduces the load on the activated carbon, allowing it to reduce odours and improve taste.

1 Medical grade polypropylene filter discs offer barrier protection by blocking particles 10 micron and larger, reducing sediment, rust, and algae.

Microlene® for Tank Water

Underbench setup

Mains water - WMTUBI
Tank water - WMRUBI

Benchtop setup (ideal for renters)

Mains water - EWMRTBI
Tank water - EWMRBTI

* Up to 3 years filter life on mains water. Up to 2 years life on tank water. Davey Microlene® contains KDF media that reduces the load on the activated carbon, extending the filter life.
